Pathlore Login instructions

In your browser type the following URL link: https://dmhwebapps/rdweb

• For future reference I would add this link to favorites and name it to something that reminds you that this link is used for Pathlore.

From here you will be directed to a page that looks like the image below

(-) S https://dmhwebapps/rdweb/pages/en-US	/login.aspx?ReturnUrl=/rdweb/paç 👻 🔒 🖒 Search	- م	- × 슈☆ 샾 🙂
SRD Web Access × 🗅			
*			
	The American	\times	A
7		💀 RD Web Access	44
Work Resources RemoteApp and Desktop Connection			
		Help	$\langle \rangle$
	Domain\user name: Password:		R
A	Security (<u>show explanation</u>) This is a public or shared computer This is a private computer		X
	Sign in To protect against unauthorized access, your RD Web Access session will automatically time out after a period of inactivity. If your session ends, refresh your browser and sign in again.		
Windows Server 2016		Microsoft	

From here you will enter your login credentials that you use to login to your computer, starting with the domain prefix (scdmhorg\userID) first followed by your user id and password. Refer to the image below.

		😽 RD Web Access
Work Resources RemoteApp and Desktop Connection		
		Help
	Domain\user name: scdmh.org\abc12 Password: •••••• Security (show explanation) • This is a public or shared computer This is a private computer	
	Sign in To protect against unauthorized access, your RD Web Access session will automatically time out after a period of inactivity. If your session ends, refresh your browser and sign in again.	
Windows Server 2016		Microsoft

From here you will be directed to a screen where you will select the Internet Explorer icon.

• For instruction purposes your screen will probably not have all of the icons that this illustration is showing. Just select the Internet Explorer icon

Now after selecting the icon, you will be redirected to a RemoteApp screen with some warning about the connection that is about to take place. It will ask you to Connect or Cancel. Please select Connect. The screen will look like the illustration below (please see note below if you used Google Chrome or Microsoft Edge instead of Internet Explorer):

SemoteApp X				
A website is trying to run a RemoteApp program. Make sure that you trust the publisher before you connect to run the program.				
This RemoteApp program could harm your local or remote computer. Make sure that you trust the publisher before you connect to run this program.				
	Publisher:	<u>*.scdmh.org</u>		
23	Туре:	RemoteApp program		
	Path:	iexplore		
	Name:	Internet Explorer		
	Remote computer:	DOAS-BROKER2016.SCDMH.ORG		
🕤 Show	Details	Connect Cancel		

Note: If you use Microsoft Edge or Google Chrome, there is a link that will download first (see screen shot below). You must click that to launch the connection.

Now you will be able to access Pathlore by using the link below. You may have to copy and paste it into the browser.

Pathlore: http://dmhu/stc/scdmh/psciis.dll?linkid=551837&mainmenu=SCDMH&top_frame=1

The Internet Explorer browser that is connected to the server will appear in your task bar with a different icon (please see the screen shot below).
